The Green Lion's Preface	xi
Translator's Preface	xv
Preliminaries to <i>The Almagest</i>	
Appearances of the Fixed Stars	1
Appearances of the Sun	4
Observing Instruments	8
The Sexagesimal System	9
Chronology	11
Epitome of the Ptolemaic System	
Layout of the World	15
The Horizon	17
Meridian	18
The Right Sphere and the Oblique Sphere	19
Right Ascension and Longitude	20
✱	
<i>The Almagest</i> ~ Book I	
Chapter 1. Introduction	23
Chapter 2. On the Order of the Theorems.	26
Chapter 3. That the Heavens are Spherical and Move as a Sphere.	27
Chapter 4. That the Earth Also Is Sensibly Spherical as a Whole.	29
Chapter 5. That the Earth Is in the Middle of the Heavens.	30
Chapter 6. That the Earth Has the Ratio of a Point to the Heavens.	32
Chapter 7. That the Earth Does Not Move at All.	32
Chapter 8. That There Are Two Different Kinds of Primary Motions in the Heavens.	34
Chapter 9. On the Particular Conceptions.	37
Proposition 1.1	38
Chapter 10. On the Magnitude of Chords in a Circle.	38
Proposition 1.2	40
Lemma 1.1	40
Proposition 1.3	41
Proposition 1.4	42
Proposition 1.5	42
Lemma 1.2	43
Chapter 11. Table of Chords in a Circle.	46
Chapter 12. On the Arc Between the Tropics.	56
Chapter 13. Preliminaries to the Spherical Proofs.	59

Lemma 1.3	59
Lemma 1.4	60
Lemma 1.5	60
Lemma 1.6	61
Lemma 1.7	61
Lemma 1.8	62
Proposition 1.6	62
Proposition 1.7	64
Proposition 1.8	64
Chapter 14. On the Arcs Between the Equatorial the Oblique Circle.	64
Chapter 15. Table of Obliquity.	66
Proposition 1.9	68
Chapter 16. On Ascensions in the Right Sphere.	68
 <i>The Almagest ~ Book II</i>	
Chapter 1. On the General Position of the Zone Inhabited by Us.	71
Proposition 2.1	72
Chapter 2. Arcs of the Horizon.	72
Proposition 2.2	73
Proposition 2.3	74
Proposition 2.4	74
Chapter 3. Elevation of the Pole.	74
Proposition 2.5	75
Proposition 2.6	75
Proposition 2.7	76
 Preliminaries to Book III	
Precession of the Equinoxes	77
Mean Sun and Apparent Sun	78
Dates of Equinoxes and Solstices	80
Greatest, Mean, and Least Motion	80
 <i>The Almagest ~ Book III</i>	
⟨Introduction⟩	81
Chapter 1. On the Magnitude of the Annual Period.	81
Chapter 2. Table of the Uniform Motion of the Sun.	90
Chapter 3. On the Hypotheses as to Uniform, Circular Motion.	94
Proposition 3.1	95
Proposition 3.2	96
Proposition 3.3	96
Proposition 3.4	96
Proposition 3.5	97
Proposition 3.5, A.1	98
Proposition 3.5, A.2	99

Proposition 3.5, A.3	99
Proposition 3.5, A.4	100
Proposition 3.5, B.1	100
Proposition 3.5, B.2	101
Proposition 3.5, C.1	101
Proposition 3.5, D.1	102
Proposition 3.5, D.2	103
Chapter 4. On the Apparent Anomalistic Motion of the Sun.	104
Chapter 5. Particular Segments of Anomalistic Motion.	109
Chapter 6. Table of the Sun's Anomalistic Motion.	116
Chapter 7. On the Epoch for the Mean Passage of the Sun.	118
Chapter 8. On the Calculation of the Sun.	120
Chapter 9. On the Inequality of Days and Nights.	120

The Almagest ~ Book VII

Chapter 1. That the Fixed Stars Always Preserve the Same Position Relative to One Another.	125
Chapter 2. That the Sphere of the Fixed Stars Also Makes a Certain Motion Eastwards Through the Mid-zodiac Circle.	126
Chapter 3. That the Eastward Motion of the Sphere of the Fixed Stars is Also Produced Around the Poles of the Mid-zodiac Circle.	129

Preliminaries to Book IX

Mercury and Venus	131
Mars, Jupiter, and Saturn	132
Planetary Anomalies	133
The Planets and the Mean Sun	139

The Almagest ~ Book IX

Chapter 1. On the Order of the Spheres of the Sun, Moon, and Five Planets.	141
Chapter 2. On the Aim of the Hypotheses of the Planets.	142
Chapter 3. On the Periodic Returns of the Five Planets.	145
Chapter 5. Preliminaries to the Hypotheses of the Five Planets.	149
Chapter 6. On the Mode and Difference of the Hypotheses.	151
Proposition 9.1	151
Proposition 9.3	153

Preliminaries to Book X

Apogee and Perigee	155
Eccentricity and the Equant	156
Zodiacal Anomaly and the Two Eccentricities	157
The Epicycle of Mars, At Last	160

The Almagest ~ Book X

Chapter 1. Demonstration of the Apogee of the Star Venus.	161
Chapter 2. On the Size of Its Epicycle.	162
Proposition 10.1	163
Proposition 10.2	163
Chapter 3. On the Ratios of the Eccentricity of the Star.	164
Proposition 10.3	165
Chapter 4. On the Correction of the Periodic Motions of the Star.	167
Chapter 5. On the Epoch of its Periodic Motions.	171
Chapter 6. Preliminaries to the Demonstrations Concerning the Remaining Stars.	172
Proposition 10.6	173
Proposition 10.7	174
Chapter 7. Demonstration of the Eccentricity and the Apogee of Mars.	175
Proposition 10.8 Part A	176
Proposition 10.8 Part B	178
Proposition 10.8 Part C	178
Proposition 10.8 Part D	179
Proposition 10.8 Part E	179
Proposition 10.9 Part A	180
Proposition 10.9 Part B	181
Proposition 10.10	182
Proposition 10.11	183
Proposition 10.12	184
Proposition 10.13	184
Proposition 10.14	185
Proposition 10.15	186
Proposition 10.16	187
Proposition 10.17	188
Proposition 10.18	189
Proposition 10.19	190
Chapter 8. Demonstration of the Size of the Epicycle of the Star Mars.	191
Proposition 10.20 Part A	192
Proposition 10.20 Part B	192
Proposition 10.20 Part C	193
Chapter 9. On the Correction of the Periodic Motions of the Star Mars.	193
Proposition 10.21	194
Chapter 10. On the Epoch of its Periodic Motions.	196

Preliminaries to Book XI

Computation of Planetary Positions	199
How the Tables are Constructed	200
How to Use the Tables	202

The Almagest ~ Book XI

Chapter 9. How Precise Passages are Obtained from Periodic Motions.	203
Chapter 10. Treatment of Table-Construction of the Anomalies.	204
Chapter 11. Tables of the Longitudinal Adjustment of the Five Planets.	209
Chapter 12. On the Longitudinal Calculation of the Five Planets.	214

Preliminaries to Book XII

Alternative Hypotheses	217
The Station Criterion	219

The Almagest ~ Book XII

Chapter 1. On the Preliminaries to the Retrogradations.	221
Proposition 12.1	221
Proposition 12.2	222
Proposition 12.3	222
Proposition 12.4	223
Lemma 12.1	224
Proposition 12.5	225
Proposition 12.6	226
Proposition 12.7	227
Proposition 12.8	227

Preliminaries to Book XIII

Context of the Selection.	229
---------------------------	-----

The Almagest ~ Book XIII

Chapter 2. On the Mode of the Motion of the Hypothetical Inclinations and Obliquities.	231
---	-----

Appendix 1. The Trigonometric Functions	233
--	------------

Appendix 2. Days of the Year	237
-------------------------------------	------------

Appendix 3. The Menelaus Theorems	239
--	------------

Select Bibliography	241
